# Technical Advisory Service

## ROI Fact Sheet

### Our Terms

---

The Technical Advisory Service is rolling 3-month contract terms at €900 per month. This is due at the beginning of each term.

### Guaranteed Value

---

We know that it is imperative to justify investment. To that end, in each 3-month term, the definite benefits are:

- 4 hours of dedicated hours of advisory talks per month to make regular progress towards mastery
- A “deep-dive” 4-hour session once per quarter to spend focused hours on a topic, develop a new skill, or even architect a solution
- A planning and review session at the beginning and end of each term to outline goals and progress

### Additional Value

---

In addition to the benefits about, your staff member will get access to our rapid response “unstuck” service. This is the ability to contact us for help on a quick, as-needed basis before putting significant cost in time (and in schedule, and in mental well-being) into solving problems. Your staff member will know that they have an expert on stand-by that they can rely on for help.

### The “Unstuck” Service

---

Challenges come up; people get stuck.  
Let's examine the cost of that:

On average, if this happens for 4 hours twice a month - or if two days gets lost every couple of months - your team loses 8 hours per month.

**At €45 per hour, that is a loss of over  
€1000 every quarter!**

(In addition to missed deadlines and stress.)
